Men's Golf

March 2018

- 3/7 PMGA Championship
- 3/14 PMGA Championship
- 3/21 Free Lunch- Scramble and Awards
- 3/28 Points Game

From the Golf Pro Shop By Brian Schmidt

Happy March everyone. I hope you all enjoyed the great weather and course conditions for the month of February.

The PLGA will be having their Member Guest golf and lunch event on March 20. Sign up sheet is available in the Golf Shop.

The PMGA will have their annual Championship on March 7 & March 14 with an awards and free lunch event on March 21. Sign up will be made available once we get closer to the date.

The PLGA/PMGA shootout will be held on Sunday, March 4 at 1:00PM. The ladies will tee off at 1:00PM and the men will follow. Please come join us for some fun. We will be offering a beverage cart for the gallery. All beverages (soda, water, Gatorade, and beer) will be \$2.00 each.

The winter season is moving very quickly so make sure you get out and use your beautiful facility. Remember that as a member, you can book your tee times up to seven days in advance. Also be sure to let the Golf Shop know if your tee time reservation goes from a foursome to a twosome. We have recently had too many no shows and groups showing up with fewer people than booked. This is revenue loss for the Club so please be courteous and let us know of any changes to your tee times.

This will help us maximize our course playability and meet our revenues for the year. Thanks for your understanding.

From the Golf Course Superintendent

By Raymond Bartels, CGCS

Spring is upon us and starting this month we will begin to increase our maintenance and mowing frequencies as we move into full growing season. We will also begin our weekly verticutting and topdressing practices. This is necessary to relieve the greens of thatch, excess stem material, as well as help the soil profile. A few days after verticutting the greens will go off color, this is a normal response. Also as the weather heats up you will notice the areas that had rye grass applied on the tees, fairways, collars and approaches turning brownish and thinning, this is also normal, as those areas are going through transition, (transitioning from one grass species to another). There was a pre-emergent herbicide and fertilizer application applied to the Golf Course in late February. The analysis that was applied is activated by microbial activity, which is all controlled by weather. The more we warm up, the more the turf will respond, green up, grow and produce lush conditions. Along with the green up, you will notice a lot of herbicide spot spraying. This is done in a effort to control any late Winter or Spring weeds which are germinating. I apologize for any inconvenience from the course maintenance. Enjoy the Golf Course and I hope to see you out there.

Ladies' Golf

March 2018

- 3/4 Shoot Out (Sunday)
- 3/6 Odd Holes - 2 Best Balls
Even Holes - 3 Best Balls
- 3/13 Tee to Green with Handicap
- 3/20 Member/Guest Scramble & Luncheon
- 3/27 Quota Points
- 3/28 Pinebrook/Ironwood Golf & Luncheon
(Wednesday at Pinebrook/ Ironwood)

Mark your calendars for April events:

4/11 Jack & Jill (Wednesday)

4/17 Member/Member

Come out and play every Tuesday!
Sign up in the Golf Shop by Monday.

UNAUDITED FINANCIALS

Ending balances subject to change before Annual Meeting

FROM THE ACCOUNTING OFFICE

By Valerie Funk

To our members:

This article is to address the confusion regarding the mailing address and the lockbox process timing of member payments. The number of late payments has recently increased severely.

The correct mailing address for all assessment payments and other member charges is:

PO Box 23663
Tampa, FL 33623-3663

If you use your own bank's online banking process please be sure you have updated the mailing address to the above address. Also, please make sure your 4-digit member account is referenced on the check. This reminder has been posted several times in the Scorecard since last summer.

Please be aware if you are using online banking and the check is not dated on or before the due date (January 1, April 1, July 1 and October 1), your bank will not cover any late fee. This is because the payment is considered to be sent out late already. Members have come across this situation in the past. We want you to benefit from those experiences.

To clarify:

The member assessment is due on the first day of the quarter (January 1, April 1, July 1 and October 1), as is stated on the statement. There is a grace period to the last day of the month.

All member charges are due by the last day of the month following the month the charge was made. For instance, all of January charges for F&B or golfing are due by February 28th.

Payments in the lockbox are collected every day at 7AM and posted that day by the bank. The checks received on the first day of the new month are posted with the prior day's date in our IBS system, since they were put in the mailbox after 7AM on the last day, and collected on the first day of the new month.

There is a notice on the statement informing our members that we go by the date of receipt, not the postmark date for posting payments, and to **mail the checks a week before the due date**. We have noticed all checks dated after the 23rd of the month it are not making it to the lockbox until the first of the month at the very least. Assuming those checks are mailed the same day as the check date, it is obvious that the USPS takes a week to deliver the mail from Bradenton to Tampa. Please do not wait until the very last day to mail your assessment.

If you choose to use the member payment portal on the Peridia website, it takes three to four business days for the payment to post to our bank. However, we are able to verify the date the payment was initiated, and use that date for posting the payment.

It does not give us any pleasure to assess finance charges or interest on outstanding balances. However, we have to follow our by-laws regarding this matter. Please keep all this information in mind while determining when to send the next payment due.

Thank you for taking the time to read this informative article.

General Manager's Column

January started off with very cold weather which affected our golf rounds and our restaurant covers: Rounds were down compared to 2017 rounds by 770; covers were down compared to 2017 covers by 290 this gave us a short fall to budget in Golf and Food revenues of (\$3,758). Other revenues offset those loses to where we had a positive \$270 to budget. Cost of Goods Sold came in under budget by \$1,763 and expenses for January were under budget by \$3,376 giving us a sub total of \$5,409. Other Income / Expenses were over budget by (\$2,769) this is due to our free promotions. January's **Net** income beat budget by \$2,298.

Larry's Tiki Bar is now opened!!! Yes, you can come out and have a tropical drink with lunch every day from 11:00 to 2:00PM. Tropical bites (chips and pretzels) and more Drinks from 2:00 till Larry gets tired (sunset). Larry will be having tropical drink specials each week so come out and join the fun. Our Tiki Bar dress code is proper bathing suites, tee shirts, shorts and an Ohio State hat.

Our dress Code for the club house reads as follow:

Acceptable Casual Country Club Attire includes blouses and knit tops, slacks, skirts or walking shorts for women; collared dress shirts including mandarin collars or turtlenecks, golf shirts, knit tops, khaki pants or walking shorts for men. **Unacceptable Attire** includes cutoffs, gym shorts or running shorts, sweat or jogging suits, **tee shirts**, tank tops and ripped, torn or ragged clothing or inappropriate or indecent clothing. Jeans are discouraged. **Men are requested to remove their hats in the dining room.** Our dress code includes Monday Madness which is a casual event but please no tee shirts. Until the BOD changes our dress code policy the staffs here at Peridia are required to inform our members and public guest of our policies and ask that you please follow those policies each time you use your club.

Update on the weir: we opened five of the end caps to see how much blockage we have in the pipes. We found that there was no blockage in the pipes meaning that the filtering field and the filter blanket will need to be replaced. Bennett construction is taking steps to change the scope of work to help reduce our costs. SWFWMD has given us an additional 15 days extension in getting the weir working properly.

The golf course is starting to see signs that our over seeding is leaving us due to the hot weather. As we start to lose the rye grass Ray is putting down additional fertilizer to get the Bermuda to start growing. During the transition there will be a short time that the fairways are thinner than they were in February but just a short time for this transition.

Our lock box service has changed its procedure in posting checks. When we first started with this service the bank posted all payments to the previous day's date so if your check arrived on the last day of the month and the bank then opens the box the next morning, your payment was recorded as a payment on the last day of that month. The bank has changed this procedure to recording the date on the day that they open the lock box. This change has caused some late penalties that should not have been billed. Val has gone back and reversed those penalties and is now working with the bank to get back to the odd procedure. In the mean time please send your payments out by the 23rd of each month so that your payment will be recorded before the 1st of the following month. If you send it out later then the 23rd you may have a \$25 late payment on your next month's statement.

Remember, I always have time for your questions or comments, so please stop by my office, my door is always open.

Tom

President's Blog:

“Weir for Dummies”

Peridia's weir is being replaced. I thought you might want to know some information about it.

Southwest Florida Water Management District, SWFTMUD, is directed by Florida state law to protect and preserve water resources. They require that we filter our water system with a properly functional weir.

Peridia's weir is located at the southeast end of Lake #10, the last lake in our system of connected water bodies. It was built when Peridia was under construction back in the upper 1980's. The weir is used to control the flow rate of our lakes during periods of high precipitation. It is also designed to filter out the sediments that do not settle to the bottom of our lakes as the water travels through storm drains, into the lakes, between the lakes, to lake #10, and out to Gap Creek on its way to the Braden River.

The weir is built on an underwater shelf near the east end of Lake #10. As water flows west to east toward the shelf, it is forced to climb up an underwater embankment and flow over the weir's filtering zone. At this point, the water can only flow through the layers of the weir to exit Peridia. The weir's top layer is 2 inches of course aggregate stone. Next is a thin layer of screening material, which separates the stone from the roughly 2.5' thick bottom layer of filtering sand. Buried 2' below the weir's surface is a system of perforated parallel PVC pipes that are attached to a large connecting pipe allowing the clean filtered water to flow out through a single pipe into Gap Creek. Cleanout pipes will be mounted in the grass banks on both side of the lake.

During the dry season water will filter under the stone through the netting and sand. During the rainy season, the lake levels will rise with each storm. On occasion, depending on how heavy the rains, water could rise enough to flow over the spillway, but this should be a rare occurrence if the weir works properly.

SWFTMUD determined that our weir wasn't filtering sufficiently after 30 years. They required us to fix the problem. We discovered that several of the old pipes functioned satisfactorily, but the filtering material in the lake became so clogged that the water was always flooding over the spillway and not filtering through the weir appropriately therefore allowing debris to flow out to Manatee's waterways. That was not acceptable to SWFTMUD.

We've also discovered that erosion has widened the lake's shoreline therefore causing water to bury the cleanouts that were originally on the north bank. Like the other lakes in our system, Lake #10 needs shoreline repairs. The erosion repair requires 1 to 2 layers of permanent geo-tube, in order to conform to the State of Florida Water Management District "step" specification. This "step" is a District requirement that provides a safe exit so someone accidentally in the water can step out. In addition to the permanent geo-tubes, all restoration will receive a "sacrificial" geo-tube layer to provide a proper slope from lake to back yards. The goals are to protect Lake #10 from future erosion and to reconstruct our weir to meet SWFTMUD's standards. This was the suitable time to fix the banks on perhaps the most important lake in Peridia's water system.

Weir almost done,
Bill Handy,
Master Board President

It's the LAST ONE for the Season!

Neighbors Helping Neighbors A Peridia Community Outreach Program

Maybe you don't feel comfortable going to the Clubhouse pool by yourself and would like someone to sit poolside and wait while you do your exercises or just enjoy the water. Or you'd like a neighbor to pick you up and take you to a meal or activity at the Clubhouse and then return to take you home. These are just two examples of how volunteers are willing to donate their time to assist their neighbors in Peridia.

Many folks in our community already have a support system in place...a relative, friend, or neighbor who helps out when you need it. But there are other people you may not know yet who are available and willing to offer assistance. You may be a spousal caretaker who needs a few hours respite to go shopping or just get away for awhile. We are happy to provide someone to come to your home to keep the person you're caring for company.

If you have trouble using up your food minimum, we can help by picking up and delivering meals to your home from the Club restaurant. Or we can provide a ride to the Club so you can enjoy a meal or activity onsite...like cards, lunch and a book, bingo, or whatever is being offered that you would enjoy. We also have been gathering information on various resources that may be of interest to you such as Meals on Wheels and other services.

If you'd like to request assistance, please contact Pat Smith at 941-739-7114 or Carol Boles at 941-666-8582. Let either of these ladies know what you need and they'll see if we have someone who can provide that particular service. **Don't be shy about calling us!**

SEWING at PERIDIA

If you like to sew and/or have scrap fabric, please join us on **March 28 at 2:30PM** at the Clubhouse. We will be making lap quilts for the Manatee County Food Bank. They can use these for seniors and babies.

Please join us!

Any questions, please call
Barbara Van Buren
@ 739-1551

Food Collection

**Seasonal Resident?
Headed north for a visit?**

Please don't forget to drop off your non-perishable food items before you leave. There is a collection box in the Peridia business office. All food items are donated to the Bradenton Salvation Army.

If you need someone to pick them up, call Karen Vowles 941-739-0090.
Thank you and have a great Spring and Summer!

COYOTE SIGHTINGS & MARCH PRESENTATION ON SECURING YOUR HOME BEFORE HEADING NORTH

By: Pam Wallace, Chairman Peridia Crimewatch Committee

We have had numerous reports in the last two weeks of coyote sightings within Peridia. This is probably due to clearing of the land on 45th Street and the apartment construction. Coyotes are being forced from their habitats and therefore, have become more visible. They have always been in our area, just not where we could see them so often. I have downloaded the below information from the University of Fla. Extension Service that answers questions that we may have about them.

Are coyotes really a threat to people? Hardly ever. Coyotes are not large animals and do not pose a threat to adults. They average 25-35 lbs., smaller than most dogs. Coyotes are also timid animals and will rarely approach a person. However, small children and pets may be at risk under certain situations. Have coyotes ever attacked people? Coyote attacks (bites) on people are exceedingly rare, but some attacks have occurred, primarily on small children that were left unattended in areas where coyotes had been habituated to and/or fed and had lost their fear of people. Dog attacks on people are much more common and typically more serious. Will coyotes hurt my pets? Coyotes will kill and eat small dogs and cats given the opportunity. To a coyote, your small pet is simply a potential meal. What should I do to protect my cat and/or small dog? Most coyote attacks on pets occur at night and in the evening and early morning hours. During these times especially, don't walk your dog in areas where vegetation provides ambush cover for a coyote, and keep your dog close. Avoid using an extendable leash. If you see a coyote while walking your pet, lift your pet off the ground. Carry a stick or golf club if coyotes are known to be in the area. Be aggressive toward the coyote, shout, wave your arms, and put the stick to use if needed. Coyotes are small and will flee. What attracts coyotes to my neighborhood? Food. Coyotes are attracted to garbage, pet food left outdoors, feral cat colonies, or may simply live in your neighborhood. They are highly adaptable, smart, and will eat a diverse diet. Never feed coyotes, seal garbage cans, and eliminate other potential sources of food and coyotes will likely not be a problem. Can we remove all coyotes from an area, and what happens to coyotes that are caught? You cannot remove all the coyotes from an area, at least not permanently. New coyotes will simply move into the area to fill the void. People have learned to live with coyotes throughout the rest of the coyote's range, and we can learn to live with them too.

Additionally, there will be presentation March 14 at the Clubhouse to provide residents information on Security/protecting their homes before heading north. One of the speakers will be a deputy sheriff from Manatee County. Further information is provided elsewhere in this Scorecard, so please mark your Calendar and plan to attend. Even if you are a full-time resident, the information is beneficial to all of us.

Stay Safe!!

2018 PLGA Member/Guest
Golf Scramble and Luncheon

Red/White/Blue

Recipe of the Month

Irish Omelet

- INGREDIENTS:**
- 4 Large Eggs
 - 1 Large Mashed Potato
 - 1 Tbsp. Chives
 - 1/3 Cup Grated Dubliner Cheese
 - 1 Tbsp Butter
 - Salt and Pepper

PREPARATIONS:

1. Separate the eggs and beat the yolk. Add the yolks to the mashed potato, mixing thoroughly. Then add the cheese, chives, salt and pepper.
2. Melt the butter in a pan. Whisk the egg whites until stiff and stir them into the potato mixture. Cook the mixture until golden; then run under the broiler to finish and puff it up. Serve immediately.
